

Safety in the Workplace

Workplace accidents and injuries cost corporations millions of dollars and thousands of hours lost every year. They also have a profound, often lifelong impact on workers. Introducing a safety culture into your organization, where safety is valued as an integral part of the business's operation, not only saves the business time and money, it also builds a committed, loyal, healthy workforce. This one-day workshop will give you the foundation to start building your safety culture.

What Will Students Learn?

- ✓ Understand the difference between a safety program and a safety culture
- ✓ Use resources to help you understand the regulations in your area
- ✓ Launch a safety committee
- ✓ Identify hazards and reduce them
- ✓ Apply hiring measures that can improve safety
- ✓ Explain what a safety training program will involve
- ✓ Identify groups particularly at risk for injury and know how to protect them
- ✓ Help your organization write, implement, and review a safety plan
- ✓ Respond to incidents and near misses
- ✓ Understand the basics of accident investigation and documentation
